DA No. 21-1474

Friday November 26, 2021

Report No. SAT-01594

## Satellite Policy Branch Information Actions Taken

The Commission, by its International Bureau, took the following actions pursuant to delegated authority. The effective date of these actions is the release date of this Notice, except where an effective date is specified.

---

**SAT-STA-20210916-00123** E S2382 Intelsat License LLC, as debtor-in-possession  
Special Temporary Authority  
Grant of Authority

Effective Date: 11/19/2021

On November 19, 2021, the Satellite Division granted, with conditions, special temporary authority for an additional period of 180 days to Intelsat License LLC, as debtor-in-possession, to operate Intelsat 10 at the 177.8° E.L. orbital location. The Intelsat 10 space station operates at 177.8° E.L. in the 3700-4200 MHz, 11.45-11.7 GHz, 12.25-12.75 GHz (space-to-Earth); and 5925-6425 MHz and 14.0-14.5 GHz (Earth-to-space) frequency bands. Intelsat conducts telemetry, tracking, and command operations with Intelsat 10 using the following center frequencies: 11699.0 MHz, 12747.5 MHz, 12748.5 MHz, and 12749.5 MHz (space-to-Earth); and 14000.5 MHz and 14499.5 MHz (Earth-to-space).

---

**SAT-STA-20211117-00151** E S2154 Intelsat License LLC, as debtor-in-possession  
Special Temporary Authority  
Granted in Part / Dismissed in Part

Effective Date: 11/24/2021

On November 24, 2021, the Satellite Division granted, with conditions, special temporary authority (STA) to Intelsat License LLC, as debtor in possession, to conduct TT&C operations necessary to drift Galaxy 25 from the 32.9° E.L. orbital location, and to conduct TT&C operations necessary to maintain Galaxy 25 at the 66.13° E.L. orbital location, using the following center frequencies: 4195.5 MHz, 4199.5 MHz, 11702 MHz, and 12198 MHz (space-to-Earth); and 5926.5 MHz and 6423.5 MHz (Earth-to-space). The Division dismissed Intelsat's request for STA to provide fixed-satellite service (FSS) using Galaxy 25 at the 66.13° E.L. orbital location because Intelsat's application was missing certain technical information that would support grant of authority to provide FSS at 66.13° E.L.
